SUMMARY

Final-year Computer Science Engineering student with hands-on experience in developing full-stack and AI-powered web applications. Strong foundation in data structures, algorithms, and software development principles. Passionate about building scalable solutions and contributing to impactful engineering teams.

EDUCATION

Bachelor of Technology in Computer Science , Arya College of Engineering and IT CGPA: 8.53	2023 – 2027
Senior Secondary (Class XII) , Maharaja Agarsen Public School (ICSE) 86%	2023
Secondary(X) , Maharaja Agarsen Public School(ICSE) 78%	2021

SKILLS

Technical Skills Java, JavaScript, TypeScript, SQL	Frameworks and Libraries React.js, Next.js, Node.js, Express.js	Databases MySQL, MongoDB	Software Engineering REST API's, JWT Authentication, Git, GitHub, Postman
AI AI-Powered Application Development, OpenAI/Gemini API Integration	Core CS Subjects DBMS, OOPs, DSA, Operating Systems, Computer Networks		

PROJECTS

DocuWise <i>🔗</i> , Next.js, Node.js, Express.js, MongoDB, JWT, Gemini API, Tailwind CSS - Built a full-stack document management platform with secure JWT authentication and Google OAuth login. - Developed document upload, organization, search, and sharing features with role-based access control. - Integrated Gemini AI to summarize documents and answer document-related queries, improving information retrieval. - Implemented email verification, password reset, and secure REST APIs for user authentication and document operations. - Designed a responsive React frontend and scalable Node.js backend following a modular architecture.
KataCut – AI-Powered Privacy-First Subscription Manager <i>🔗</i> , Next.js, TypeScript, Node.js, PostgreSQL, Google Gemini API - Built KataCut, a privacy-first AI-powered subscription management platform that extracts recurring payments from bank statement PDFs and provides a unified dashboard of active subscriptions and monthly spending. - Developed a client-side PDF processing to analyze financial statements locally, detect recurring transactions using pattern-based logic, and minimize exposure of sensitive financial data. - Integrated Gemini AI to generate personalized spending insights, renewal reminders, and subscription cancellation assistance, with secure authentication and encrypted local data storage.

EXPERIENCE

Grras Solutions (P) Ltd , Agentic AI Intern - Built AI-powered assistants capable of multi-step reasoning and task execution. - Integrated LLM APIs and automation workflows into intelligent applications. - Collaborated on scalable AI-driven software solutions.	06/2026 – 07/2026 Jaipur, Rajasthan
--	---------------------------------------

ACHIEVEMENTS

- E-Cell Coordinator - Coordinated entrepreneurship events and workshops for students. - Maintained a 520+ day continuous Duolingo learning streak, demonstrating consistency, discipline, and commitment to continuous learning.

CERTIFICATES

Salesforce Programming Architect - JPMorgan Chase & Co. - Software Engineering Job Simulation (Forage) - MongoDB Skill Badge – CRUD Operations - Infosys-Artificial Intelligence

LANGUAGES

Hindi	English	Spanish Basic Proficiency (Duolingo Score: 32)
